

Lucien Pino

Of Counsel

An avid student of life, Lucien enjoys solving problems big and small. His background is in philosophy and he has experience as a mechanic, lecturer, debater, and debate coach at SJSU. His roles as negotiator and analyst for the State Lands Commission have taught him that complex problems often have simple solutions and that finding solutions to seemingly unsolvable issues requires an open mind and willingness to consider all perspectives. He is a firm believer in the idea that someone who only knows their side of a case or argument, knows little of that. As an advocate, Lucien applies this philosophy and his knack for problem-solving to find novel solutions to stubborn problems and achieve desirable results for his clients. In his free time, he enjoys cooking, restoring classic cars, finding new experiences to share with others, and spending quality time with his friends and family.
